ABOUT ME

Hi, I am Soumyadeep. I am a web developer currently pursuing B-tech in Mathematics and Computing from Madhav Institute of technology, Gwalior. I am currently working with BHEL, Bhopal as a vocational trainee and I like creating and contributing creative projects. I am open to work and Internships.

EXPERIENCE

Vocational Trainee, BHEL, Bhopal   May 2023 - PRESENT

Joined BHEL as a vocational trainee and I am currently contributing in the development of a Quality Management System with a NodeJs backend and a SQL based Database.

EDUCATION

Jawaharlal Nehru School   2017

Achieved 10 CGPA in CBSE class 10th Board exam 2017.

GVN The Global School   2019

Scored 81.4% percent in CBSE class 12th Board exam 2019.

Madhav Institute of Technology and Science, Gwalior 2020 - present

Pursuing Bachelor in Technology in Engineering Mathematics and Computing.

PROJECTS

E - Hospital — *(Hospital Management system)*

A Hospital management system with a MongoDB database and NodeJs based backend with a EJS (HTML, CSS, JS) frontend, Includes simplified process of patient registration and automated receipt generation.

STEALTH - *(Social Media App)*

A Privacy focused less distracting social media app with a MongoDB database and NodeJs based backend. Users can perform full CRUD operation on their account and create, like, dislike, award or comment on posts. This also comes with a post / user search feature. The project currently uses EJS templating and has a future goal to be created with React.

Code playground - (HTML, CSS, JAVASCRIPT)

A live code playground for HTML, CSS and javascript. It comes with both Dark and Light themes.

SKILLS

Web development : HTML, CSS, Javascript.

Back End development : NodeJS

Databases : mySQL, MongoDB

Problem Solving (DSA) using JAVA

CERTIFICATIONS & ACHIEVEMENTS

Back End development and APIs Certification : FreeCodeCamp

Responsive Web Design : FreeCodeCamp

Java (Basic) certification : Hackerrank

Nptel Cloud Computing (Elite + Silver) certificate with a score of 88%.

PROGRAMMING LANGUAGES

JAVA, and Javascript(for web development), are my preferred languages.
